DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

- a. Cancel non-elected claims 16-24

Allowable Subject Matter

- 2. Claims 1-15 are allowed.
- 3. The following is an examiner's statement of reasons for allowance: The prior art of record either singularly or in combination failed to anticipate or render obvious the limitations of forming a recombination center by introducing an impurity into the channel region so that a distance between the recombination center and the drain region is shorter than a distance between the recombination center and the source region, wherein the recombination center is detached from the drain region, and the gate insulating film is over and entirely covers the channel, the source and the drain regions as required by claim 1. In the examiners opinion, it would not have been obvious to a person having ordinary skills in the art at the time the invention was made to form the

insulating layer covering the drain, source and channel regions in the primary reference of Kim or to form a recombination center as disclosed in the secondary reference of Wang et al. in a semiconductor device having a gate insulating layer as disclosed in claim 1 since Wang et al. forms the recombination center by implanting the impurities at an angle to avoid the gate insulating layer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
